Question #1: Equipment Under Test is a portable device. Per section 13.1.4.1 of ANSI C63.4, the portable device must be investigated with three orthogonal axes. As documented in the test report and test setup photo, there is no indication that such procedure was followed. Please explain.

Question #2: Please provide antenna specification with peak antenna gain information.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
